Instructions: Record the Visit Code of the scheduled visit that was missed.

Comments: _____

Couples Missed Visit (CMV-1)

- A visit is considered missed if both the index and the partner miss the visit.
- At the Post-ART Initiation visit, record the visit code as an interim visit. For example, if a participant began ART for the first time at visit “10.0,” and their next visit is the Post-ART Initiation visit, the visit should be coded “10.1.”
