

HPTN 061 Social and Sexual Network Questionnaire					
PTID: _ _ _ _ _					
Does the Participant have HIV or AIDS? [Circle One] YES NO					
<i>Section 1</i>					
<p>As part of this study we would like to get an idea of the people who are part of your social and sexual network. I will be reading descriptions of ways that people may be important to you. These people might be friends, family members, sex partners, professionals, drug or drinking buddies, or other people you know. Please try to think about as many people as possible when I ask each question, and then I will ask you to identify these people by nickname or initials. We do not need to know anyone's actual name. We just need to know who you're talking about. At your next study visit, in about six months, we will ask you about some of these people again, so if you use a nickname, pick one that will remind you of that person six months from now. If they don't have a nickname, you may want to give the first initial of their first name and first couple of letters of their last name.</p>					
1) If you wanted to talk to someone about things that are very personal and private is there anybody you could talk to? [If no, skip to item 2. If yes, enter up to 5 nicknames]	<i>Name #1</i>	<i>Name #2</i>	<i>Name #3</i>	<i>Name #4</i>	<i>Name #5</i>
1a. [IF ITEM 1 HAS LESS THAN 5 NAMES, SKIP TO ITEM 2] How many more people, besides those you have just identified, could you talk to about things that are very personal or private? Circle one: [none] [1-2] [3-9] [10 or more]					
<i>Please carry the names entered in item 1 into the answer boxes for item 2. Whether or not the participant selects that name for item 2, they still count toward the total of five names.</i>					
2. Is there anybody who would go to a medical appointment with you? [If no, skip to item 3. If yes, ask specifically about the names carried down from item 1 first. Circle the name if "yes", skip the name if "no". Enter new names only if less than 5 people were entered in item 1]					
2a. [IF LESS THAN FIVE PEOPLE IN ITEM 2, SKIP TO ITEM 3] How many more people, besides those you've already identified, would go to a medical appointment with you? Circle one: [none] [1-2] [3-9] [10 or more]

SECTION 2

I will now ask you some questions about each of the people you identified as part of your social network. For each person in your social network who is also a sexual partner, I will then ask additional questions about your relationship with that person.

I know that you already answered questions on the computer about what you've been doing sexually, and some of the questions we're going to ask you now will be similar to those you answered before. But by asking them in a different way here, it lets us understand what's going on with Black men in a deeper way.

Please carry all the names entered in Section 1, item 4 (whether or not they are circled) into the name boxes for Section 2.

Enter the (up to) five names from Section 1:

<i>Name #1</i>	<i>Name #2</i>	<i>Name #3</i>	<i>Name #4</i>	<i>Name #5</i>

Section 4

In this section, we are going to ask whether the people in your sexual network have had sex with each other in the last year. You may not know for certain whether your sexual partners have had sex with each other in the last year, but If you think they probably have, say yes, and if you think they probably have not, say no.

Enter all the names listed in Section 2, item 9 and Section 3, item 1. Note that the number of lines to fill out will depend on how many partners were identified. Up to 10 partners are possible.	Name #1	Name #2	Name #3	Name #4	Name #5	Name #6	Name #7	Name #8	Name #9	Name #10
