

MEMORANDUM

Date: February 10, 2012
To: HPTN 067 Protocol Team, HPTN067 Sites
From: HPTN067 SCHARP Team
RE: **HPTN067 Weekly Interview Report**

The **Weekly Interview Report** for HPTN067 is updated nightly and is based on cumulative data received at SCHARP up through 17 days prior to the report being generated. The report is meant for use by the protocol team to monitor completion of the weekly interviews. This report contains information for sites that have been activated and includes the following information:

- Summary table showing the number of participants randomized into the study who have completed 100%, 95%-<100%, 90%-<95%, or <90% of the weekly interview (by site and cumulatively). Meaning, of all possible days that are expected to be covered by a phone call, what percentage of days are covered by a weekly interview.

Please contact the HPTN067 Project Manager at SCHARP, Laura McKinstry (lamckins@scharp.org), with any questions you may have regarding this reports.

Thank you.
