¹ Overall enrollment target is the protocol target. This is not necessarily equal to the sum of region targets, which are the sum of site targets which may be adjusted over time to meet the protocol target.

² Months from first enrollment through completing enrollment target, plus months with enrollment over target. First and last months may be fractional due to enrollment start date and data cutoff date.

³ Total enrolled divided by months of active enrollment.

⁴ A dash (–) in the enrollment column indicates a month not in active enrollment period ², so no enrollment is expected.
