¹ Date of most recent enrollment as of December 1, 2025.

² Duration of accrual based on first enrollment date.

³ This is the percent of time that has elapsed from the first enrollment to the expected duration of accrual per protocol. For example, if the report is run on May 31, 2014, the site's first enrollment is on January 1, 2014 and the expected duration of accrual is 6 months, then the Percent Accrual Duration = 83.3%.

⁴ The percentage of the expected duration of accrual that it took to reach the target accrual. For example, if the report site finished accrual in 3 months but the expected accrual duration was 6 months then Final Percent Accrual Duration is 50%.
